Claim number 64556

Dear Sirs

I have received from you a Notice of the 379 omnibus objection to claims included mine (number 64556) with several legal considerations and notices but I should inform you that I am not aware of the US legislation and don't real knew what is the relevance of this Notice to my Claim neither what I need to do in relation to this Notice.

As I have referred before, I am a portuguese retired civil engineer, living permanently in Portugal, that have applied his economies buying in Portugal, from a portuguese bank called Millennium BCP 50 bonds of LehmanBrothers Company, as a normal form of investment, from which I have expected to get some profit, because at that time I had a good information about the reputation and financial capacity of Lehman Brothers.

As a matter of fact I never get any interest or dividend from this application but have been involved in a lot of problems, formalities and procedures, in result of the Lehman Brothers bankruptcy, for which I had no interference.

I think that I am entitled to get back the money invested and now I just want this, waiting for the decision of the US Bankruptcy Court to this case.

I believe in the Justice Sistem and Laws of the U.S.A. and hope that at end the decision of the USBC will be favorable for me and others creditors in the same situation.

This is the answer that I can do now for the referred Notice.

Sincerely Yours

J.J. R. Dragao
